

Subject: Concerns over online safety - Roblox

Hi all,

I received information from a Primary School in the local area, where three children reported that over the weekend, someone who they had been playing with online exposed their real names and addresses. This individual asked to meet the children at a local park and if they didn't they would kidnap and sexually assault them. Thankfully these children didn't go to meet the person and told their parents straight away what had happened, this was also reported to the police.

Please can you remind parents about their responsibility to be monitoring online use and to ensure all privacy settings are in place. This also can be used as an opportunity to remind children around online safety and not to divulge personal information online.

On the safeguarding updates I have provided there are links to HBW and NSPCC around online safety.

Thanks,

Anneliese
