

We will do this by deciding if we have done or learnt something in the best way then looking if it could be improved / made better.

Our School Targets / Ein Targedau Ysgol

Target 1:

- ❖ We are progressing / moving forward in our learning to achieve our goals.

Our School Targets / Ein Targedau Ysgol

Target 2:

- ❖ We are improving / getting better at using our number skills.

We will do this by using concrete resources (counters / blocks / rods / etc.) to help us understand what a number actually means and we will talk about our learning to our teachers and together. We will also use our skills to help us in other areas of our learning.

We will do this by using White Rose Maths, Monster Phonics and Superhero Spellers across the whole school. Our teachers will all also use consistent teaching techniques to support us.

Our School Targets / Ein Targedau Ysgol

Target 3:

- ❖ Regardless of our age or class, our teachers provide us with a range of learning opportunities in a consistent way.

We will do this by exploring the village;
investigating it's history; talking to
members of the community; helping out in
our community; creating a website about
our community.

We will also research our wider local area
and Wales.

Our School Targets / Ein Targedau Ysgol

Target 4:

- ❖ We are learning about
our community and where
we belong in this
community, and in our own
country.
