

SHARE YOUR WORRIES

We are here to keep you and your friends safe from harm. If you see, hear or even just have 'that funny feeling in your tummy' then it is important you speak to your safeguarding lead.

You see a group of older boys offer one of your friends a cigarette outside of school

The boys in your class make a game of trying to pull up the girls skirts even when they ask them not to

A girl you sit next to on the bus has bruises on her arms and she doesn't have a coat for cold days

Some girls make a Tik Tok video that makes fun of one of their classmates because she has a lisp

Your friend Alex cries at lunchtime because his parents are fighting and might be getting a divorce

Alice has started to wear new jewellery and tells everyone it is from her much older boyfriend
