

## Ysgol Gymraeg Trebannws Development Plan September 2025- September 2026 (Year 1 of target)

Priority 3	Question	<p><b>To improve provision in the foundation phase by fostering independence among pupils.</b></p> <p><b>Priority Leader : Amy Grinter</b>  <b>Governing Member(s): Mrs N Williams + Mrs S Jade</b></p>	
Why is this a priority – what does self-evaluation tell us that we want to improve?			Success criteria – what will the success look like after a year?
<p>Most foundation phase children concentrate well during focus tasks and about half concentrate well during provision and challenges, <i>therefore, the element of resilience and independence will need to be developed during provision and challenges.</i></p> <p>Opportunities will be given to pupils at the upper end of the school to be involved in the planning process by sharing what I would like to learn/know about the theme. <i>Nevertheless, there is a need to ensure that there are consistent opportunities for our foundation phase pupils to pursue their interests and enrich this interest both inside and outside the classroom.</i></p>			<p>A learning environment that encourages children to make decisions for themselves, explore resources independently, and develop self-management skills.</p> <p>Regular opportunities for children to take responsibility for their learning.</p> <p>An increase in the number of children using resources independently.</p> <p>Improvement in ability to complete tasks without direct assistance.</p> <p>Observations show greater confidence and initiative among the pupils.</p>
