

Alltwn Primary School
Toilet Policy

This policy is freely available to the entire school community. It has been approved by the school governors and learners and made available on the school website.

Aims

- To maximise access to learners' toilet facilities during the day to promote the health, well-being and learning opportunities of all learners.
- To provide good quality toilet facilities throughout the school.

Rationale: Why are we writing this policy?

- The school recognises that well-maintained toilet facilities where learners feel comfortable and safe and have open access to throughout the school day, are essential for health, well-being, and learning.
- We value and respect our learners and want them to be able to benefit from good provision and practice.

Objectives: What do we want to achieve?

- To ensure that this policy is both accepted and upheld by the whole-school community – school management, staff, learners, governors, parents/carers, site manager, cleaning and ancillary staff.
- To keep all toilets open and available to learners throughout the school day. While learners can use toilet facilities at break and lunchtimes if they need to, we ensure learners have access at all times. We recognise that toilet needs are highly individual and do not conform to regimental timetables.
- To ensure that the toilet and washroom facilities are suitable for the range of anticipated users, including learners with disabilities and special needs, with adequate lighting, fixtures and fittings.
- To ensure that all toilet areas have properly maintained supplies at all times of hot and cold water, liquid soap, hand drying facilities and toilet tissue in dispensers, provided at a convenient height.
- To ensure sanitary disposal units in one female cubicle (for girls aged five and over) are serviced on a regular basis and that sanitary wear is available if needed.
- To implement and maintain an effective toilet cleaning, supervision and inspection regime to ensure proper standards of provision and cleanliness, throughout the school day.
- To locate drinking water supplies and outlets in safe and appropriate locations, and not in toilet areas
- To supervise the toilets at break and lunchtimes, if learners perceive the need. If learners assume this role, we will train and supervise them to ensure they carry out their duties correctly and do not restrict fellow learners from using the toilets as and when they need to.
- To actively seek the views of the whole-school community in relation to any concerns about toilet provision and access issues (ensuring a child-friendly procedure for learners to report deficiencies or problems) and to respond seriously to these and deal promptly with any problems highlighted by the learners.
- To actively consult and involve the learners in managing the toilets (via the school council).
- To encourage learners to respect the toilets and each other (via the school council, in PSE lessons, in class teacher discussion times, and for learners to establish a Learner Code of Conduct in toilets and washrooms.
- To regularly include toilet management issues in all appropriate school council, staff, parent/carer and governor meetings.

To implement and maintain three yearly reviews of the policy to monitor that it is being adhered to and remains relevant.

Notes

- This policy document was produced in consultation with learners, parents/carers, school and governors.
- The school actively supports the provision of open access to well-maintained, clean, private and safe toilet facilities throughout the school day.

Appendix A

Education and Resources for Improving Childhood continence

BOG Standard Campaign – Good toileting

Good toileting practice – for learners with continence problems

1. This group of learners should be encouraged to make full use of breaks to visit the toilet.
2. They will need the opportunity to make scheduled (perhaps hourly) visits to the toilet.
3. It is important for many of these learners to sit down on the toilet and spend several minutes trying to make sure the bladder and bowels are completely empty.
4. They should have the opportunity to visit the toilet in privacy.
5. Many of these learners will have a very short warning of the need to go and may need to go frequently, even if they have just been. They should be allowed to leave the class to visit the toilet immediately, without fuss, and without having to wait for permission. Avoid causing embarrassment or making them 'hang on'.
6. Consider where the learners sit in class in relation to the door and when regrouping learners for different activities.
7. In order to develop their bladder capacity and to help avoid constipation and soiling problems, it is important they drink water regularly throughout the school day.

Good toileting practice – for learners without continence problems

1. Most learners should be encouraged to only go to the toilet when they feel the need to go.
2. They should not be taught to go 'just in case'.
3. They should not be subject to prolonged delays before going.
4. They should be able to go to the toilet without adverse comment or restriction.
5. They should have open access to toilets when the need arises.
6. They should have the opportunity to visit the toilet in privacy.
7. They should be encouraged to drink water regularly throughout the school day.
