

Big Question

Alone we are strong, together we are stronger

During this term, children will use expressive arts to demonstrate what they have learnt about the artistic and cultural heritage of a range of countries participating in the world cup.

Children will learn to value their own contributions as well as appreciate the work of others and understand that collaboration is key to producing an effective finished piece. Utilising a range of ITC Skills and apps, the children will work in groups to produce items which illustrate their findings which will then be edited into a short clip viewed by the whole school.
