

Celebrations

Statement

Let's celebrate what we love about Wales

This term the children in Year 1 and Year 2 will learn that celebrations are a big part of our lives. We will look at different ways in which we celebrate special days. We will have opportunities to learn through first hand experiences, song, dance and stories. We will further our knowledge and share ideas about the historical figures and places that have helped to shape the Wales we live in today. To develop our thinking skills we will analyse and compare different celebrations through engaging activities.

We look forward to planning and organising our own special event to celebrate all that we love about Wales!
