

Big question

Why are celebrations important?

This term, our whole school concept will be celebrations. In year 3 and 4 we are exploring why celebrations are important. They will investigate diverse celebrations from around the world and will plan their own celebration party towards the end of the term. During their enquiry, they will carry out research, compare and evaluate similarities and differences, expressing their own opinions and presenting their findings. Through observing and participating, they will learn about cultural diversity, the significance of traditions, and the value of shared joy.
