

Nursery

Purpose:

This term the nursery children will be focusing on settling into school, developing their social skills and exploring all the fun things that school has to offer! As the children settle, they will learn the class rules, daily routines and begin developing their independence. Through story time, circle time and games, the children will build their attention and listening skills. We will spend lots of time during the Autumn term getting to know the children, finding out about their interests and who is important to them. The children will learn about themselves, what makes them special and how everybody is different.

End Goal: *For children to feel comfortable in their school setting and be able to identify family members and what it means to be them.*

Core Values: *Curiosity, courage and kindness*
