Belonging – Who Are We?

Why is it important that children learn about this?

Our Belonging topic will help children explore who they are, where they come from and what it means to be part of a community. Pupils will learn about their own identity, heritage and cynefin, the places, people and experiences that help give us a sense of belonging.

Children will explore how Wales and Britain has been shaped by different people, cultures and experiences. They will consider different viewpoints and learn how information, including media reports, can influence the way we think about people and events. The topic will also help children understand the importance of children's rights, equality, diversity and inclusion. Through discussion, research and reflection, pupils will develop empathy and respect for others, while learning to question information and form informed opinions.

Ultimately, we want children to understand how they can contribute positively to fair, welcoming and inclusive communities, both in Wales and the wider world.
