

Welcome to Blaengwrach Primary School

All of our children deserve a safe, secure and stimulating environment, where they are interested and motivated to learn. Your child will be given every opportunity to develop an enthusiasm for learning - about their self, their friends and the world around them in an environment where their natural development can be fostered.

At our school, your child will experience a relevant curriculum that is holistic, and one which recognises their wider range of achievements. It is our responsibility to ensure your child is equipped with 'life-long' skills which will prepare them to face the 21st century with independence, confidence and success. Your child will have opportunities for their full potential to be recognised and developed. Your child will know that their efforts are valued, and they will be respected and treated fairly. Your child will be encouraged to believe in them self, achieve their goals and succeed in their ambitions, whatever they may be. We look forward to working in close partnership with you during this precious educational journey.
