twinklhive

**Whose idea was it to just
'let' children go online?**

42%

of children
aged 5-12 use
social media

183,000

reports of
'self-generated' images
or videos of children
being abused

The biggest increase in 'self generated
material' has come from girls aged just
7-11 years

The Global Problem

65%

of 8-14 year
olds have been
cyberbullied

76%

of children
aged 10-11
have shared an
image online

70%

of children in
UK play games
online

70%

encounter
inappropriate
content online
whilst doing
homework

97%

of children
aged 5-15
regularly use
the internet

92%

of children aged
8-10 have seen
nasty comments
online

50%

of 6-7 year olds have **set up some kind of online profile**

85%

of 8-9 year olds believe being **told their picture is 'interesting' is meant in kindness.**

What Students Say

Over half of 8-9 year olds have been **upset online**. And the same number of 7-8 year olds **felt pressured or anxious online.**

Around **half** of 9-11 year olds **believe cyberbullying is worse than face to face bullying**

84%

of 10-11 year olds say they've felt **angry or frustrated when gaming**

Around **6 in 10** of 10-11 year olds believe they **can share anything online - as long as no one finds out it was them.**

6%

of 10-11 year olds **would turn to a teacher about online concerns.**

The skills that your child needs to be safe online

**Digital
Resilience**

**Digital
Empathy**

**Digital
Intelligence**

**Digital
Literacy**

**Digital
Awareness**

**Digital
Independence**
